

## Syntax.net is moving South but not just for the winter...

### Syntax.net is expanding their Oracle JD Edwards practice into the North Eastern US.

Montreal – January 14<sup>th</sup>, 2008 - Syntax.net, the Montreal-based Business Solutions Company, has announced an expansion of its partnership with Oracle and has begun to resell Oracle's JD Edwards EnterpriseOne software in the North Eastern United States. JD Edwards EnterpriseOne is a comprehensive, integrated applications suite of ERP software that combines business value, standards-based technology, and deep industry experience into a business solution with a low total cost of ownership.

Syntax's new business unit will focus on providing solutions for emerging and growing companies with its Oracle Accelerate for Industrial Manufacturing as a key element. The Industrial Manufacturing Business Accelerator allows small and medium sized manufacturers and distributors to transform their businesses with pre-built core functionality that is easy to implement but very flexible to allow for growth and change.

As one of Oracle's top Canadian resellers, Syntax has addressed the Canadian JD Edwards market for over ten years. But the company also has a thirty five year history in the integrated North American market as well with over with over 300 customers in a variety of industries...

"We are looking forward to working with Syntax in the North East region," commented Patrick Galvin, North Eastern Regional Manager for Oracle. "The value that Syntax brings to the table is unsurpassed, they have over 35 years of experience in the SMB market and have tremendous expertise with the Oracle JD Edwards solution. This partnership will benefit not only our existing client base but our future customers as well."

"We are excited to continue to build on a long standing and mutually successful relationship with Oracle," remarked Gary Shaffran, Senior Vice President, Syntax.net. "Moving into the North Eastern United States with them was a natural progression for Syntax.net. We look forward to a successful expansion of our software, hardware and services businesses."

#### **Oracle Accelerate**

*Oracle Accelerate is Oracle's approach for helping Certified Partners in the Oracle Partner Network bring complete, easy to own, industry-focused solutions to small and medium businesses. Key to Oracle Accelerate solutions is the availability of pre-packed application bundles that can be quickly implemented by partners and provide a wide range of industry-specific functionality. Oracle Business Accelerators, the rapid implementation software provided to resellers as part of Oracle Accelerate, enable customers to realize immediate benefit from Oracle Applications. With Oracle Accelerate, customers can take advantage of Oracle's enterprise applications including integrated business flows across front office, back office and industry-specific processes. Additionally, customers can benefit from automated upgrades, significantly reducing the complexity and risk associated with migrating to updated versions.*

#### **About Oracle Partner Network**

*Oracle Partner Network is a global business network of more than 19,000 companies who deliver innovative software solutions based on Oracle software. Through access to Oracle's premier products, education, technical services, marketing and sales support, the Oracle Partner Network program provides partners with the resources they need to be successful in today's global economy. Oracle partners are able to offer their customers leading-edge solutions backed by Oracle's position as the world's largest enterprise software company. <http://oraclepartnernetwork.oracle.com>*
