- Industry: Energy

www.enphase.com

Technology Footprint

- Oracle Database 11g
- Oracle E-Business Suite R12.1.3
- Oracle Financials
- Oracle Manufacturing
- Oracle Distribution

Syntax Solutions

- Syntax Enterprise Cloud for Oracle EBS
- Remote Managed Services

In late 2014, it became apparent to Enphase Energy that it needed to upgrade to a more capable Oracle ERP Cloud Services provider. As a global manufacturing company with 24/7 operations, Enphase needed a new partner that could provide more comprehensive services paired with the processes and the mature delivery structure needed to scale up its ERP environment as its business grew.

Three factors drove Enphase's decision to choose Syntax:
1) Syntax's client-centric service delivery model ensured Enphase would get the end-to-end support it needed,
2) Syntax's Enterprise Cloud offered the robust security controls needed to keep Enphase SOX compliant and
3) Syntax's integrated Disaster Recovery ("DR") solution, featuring a 2 hour RTO and 0 hour RPO that exceeded Enphase's DR requirements.

> *Syntax believes that actions, not words, drive a successful partnership. We chose Syntax because we needed a partner who could scale our environment as we grew, and Syntax has optimized our architecture whenever we've needed them to. I'm a demanding client with high expectations and I'm pleased to say Syntax has met my expectations because they're always focused on our long-term satisfaction."*

Enphase Energy Paces Its ERP Environment to Its Business Growth with Syntax's Oracle ERP Cloud

In early 2015, Syntax transitioned Enphase to Syntax's Oracle ERP Cloud seamlessly. Since then, Enphase has found Syntax to be a responsive, proactive partner, consistently focused on what is best for Enphase's long-term interests. When business needs dictate that Enphase shrink or expand parts of its footprint, Syntax scales things up – or down - accordingly. Looking forward, Enphase expects further efficiency gains as Syntax continues to fine-tune its environment.

Accomplishments

- Migrated to a scalable Oracle EBS hosting platform
- Ensured continued SOX compliance
- Secured robust Disaster Recovery
