## Syntax JD Edwards Health Check

### The JD Edwards Health Check

JD Edwards is an important asset to your business and you want to make sure you are optimizing the value of that asset. You may simply be curious about how you are using your applications as compared to best practices or you may be experiencing actual issues

#### Questions customers often ask:

- How do you set up JD Edwards to accommodate your planned growth over the next 2-5 years?
- How can you automate that aspect of your order to cash process that is currently manual?
- Have you experienced staff turnover in a particular department and are looking for an assessment of how modules are being utilized?
- Are you having performance issues with JD Edwards or do you want to take advantage of new technology?
- Are your backups taking too long to complete?
- Perhaps you've been running JD Edwards for years and need refresher training.
- Is it time to implement E1 pages or create a plan to take advantage of all that JD Edwards can offer?
- Do we really need all these customizations?

Bring the Syntax Health Check team in to review your environment and address your functional and technical needs. Syntax consultants have on average more than 10 years' experience working with JD Edwards and bring experience with hundreds of customer situations like yours to your engagement. The Syntax Health Check can provide you a holistic perspective of your JD Edwards environment or focus on a specific area.

#### Cloud for JD Edwards

Syntax understands the importance of Information systems technology to your organization. We also know that managing day-to-day tasks and system complexity can be a distraction to your key business objectives. You need IT focused on applications that will grow your business, not on managing and maintaining your technology!

Instead of building your own infrastructure, consider a custom-tailored Private Cloud Solution from Syntax. Benefit from an on-demand IT environment and 24/7 operational support - all adaptable to your evolving business needs.

#### BEST OF THE BEST
