

# IaaS for SDM

## Syntax Infrastructure as a Service

With IaaS, IT departments don't have to purchase or maintain hardware, software or operating systems. They don't have to worry about upgrades, configuration and support. By outsourcing your datacenter infrastructure to a specialized managed services and cloud provider like Syntax, your IT department can be more responsive to your businesses growth objectives.

The Syntax Cloud can help you get all the benefits of the latest business technology without the capital and IT workforce investment. Syntax provides complete IaaS solutions across multiple platforms that are customized to the needs of your business.

### With IaaS from Syntax you will benefit from:

- Controlled IT costs
- Increased Flexibility
- Maximum Performance Architecture
- Full Scalability
- Greater Security
- Improved System Availability
- EnterpriseCare® Monitoring
- Public Cloud Integration

## Syntax Enterprise Cloud for ERP

ERP Hosting is easy with the Syntax Cloud. Whether it's iSDM or another ERP system, we have the hosting solution and support you need to drive innovation and power your business ideas. With Syntax, you can count on the highest levels of security, flexibility, reliable service delivery, and 24/7 expert support.

The Syntax Cloud is scalable and compatible with multiple computing environments including MS Windows, Linux, Sparc, IBM Power i and p. Syntax helps customers launch all kinds of projects, including mobile applications, e-commerce web sites and more.
