

Mackie Moving Systems Keeps JD Edwards World Stable and Available on the Syntax Enterprise Cloud®

In 2009 Mackie Moving Systems Corporation faced a choice. It had just acquired a third party logistics company and needed to integrate its operations into their own. However, this company's Financial and Supply Chain operations ran on a heavily customized instance of JD Edwards World which ran on an AS/400.

Mackie had no familiarity with these systems and therefore it needed either to build the IT infrastructure from scratch and hire the necessary support staff or find a Cloud partner capable of hosting and supporting JD Edwards World and AS/400.

Hosted since 2009

Customer Profile

Mackie Moving Systems Corporation

- Corporate HQ: Oshawa, ON
- Industry: 3rd Party Logistics
- www.mackiegroup.com

Technology Footprint

- JD Edwards World A7.3

Mackie Moving Systems Keeps JD Edwards World Stable and Available on the Syntax Enterprise Cloud®

Mackie launched a due diligence process where it evaluated several providers, and chose to host with Syntax due to the cost competitiveness of the Syntax Enterprise Cloud® and the quality of the expertise delivered by Syntax.

Since then, this decision has delivered dividends for Mackie, as Syntax has kept its JD Edwards World instance running smoothly on its AS/400 platform. This arrangement has allowed Mackie to continue to support its shipping operations without making any additional capital expenditures or staffing investments.

Accomplishments

- Kept heavily customized JD Edwards World instance stable
- Secured on-line availability for its shipping system for over a decade
- Avoided costly IT Infrastructure expenditures
